ABOUT THE BOOK

Chris Hunt brings the Code of the West into modern life, where courage, responsibility, dignity, loyalty, gratitude, and keeping your word still matter. The book gathers a lifetime of living and refining that code into words and drawings. It opens with ten tenets, then explores purpose, resilience, identity, community, and practice. At its heart is a choice each person has to make: who to become, what to stand by, and how to live so others can count on you.
